

## Force Sensor KM26z 20N

Item number: 3979

The load cell KM26z is a membrane-type force sensor with small dimensions. It is suitable for measuring compressive and tensile forces. For force transmission there exist two threads M6. Environmental protection rating is IP 67. Force transmission must be free of lateral forces.

## Mounting

Installation instructions: When assembling attachment parts, hold the sensor in place on the installation side / do not guide any tensioning torque through the sensor. Attachment parts may be supported on adjustable feet on the end faces, if preferred

## Installation

Gap "A" may not be closed, is necessary for the function of the force sensor.
