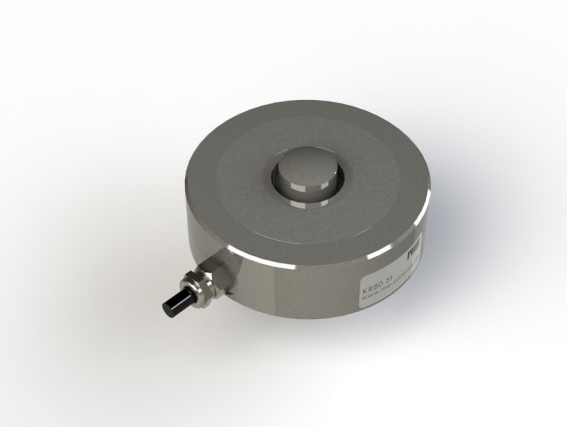
Force Sensor KR80 250kg

Item number: 892



The load cell KR80 is a precision load cell in cylindrical design. It is hermetically sealed by means od welding and available in a calibratable design according to the European requirements OIML R-60 up to class C6. It stands out thanks to its particularly low measurement path of just 0.1mm.
The environmental protection is IP 66.
Force transmission is realised by a cylindrical load knob that has to be inserted into the hole ØD2.
Optionally pendular bases for applications in weighing technology can be installed.
